HPDS Opens Western Campus!

We are pleased to officially announce the opening of Hyde Park Day School's newest campus in Lemont, IL, at the site of the former Mount Assisi Academy. The need to expand in order to serve more students with learning disabilities has been a long-term vision dating back to our founding. With the establishment of the original Chicago campus in 2000, the addition of the Northfield campus in 2004, and the expansion and move of the Chicago Campus in 2014, our growth trajectory has led to this latest expansion into a west suburban campus.

Mount Assisi Academy, a former catholic girls’ high school, sits on close to 50 acres of green space and features a well-maintained three story building, baseball fields, tennis courts and hardscape for four-square and basketball courts. While we will be doing some updating and minor renovations over the summer, we will be operational for the 2018-19 academic year. We are accepting applications now for the Lemont campus. Admission information can be found here.

Jay Smith, Principal of the Chicago Campus for seven years, will be leading the opening of the Lemont Campus. We are thrilled to share this news with our school community and look forward to continuing to serve all of our students with our singular focus on utilizing best practices for remediation of learning challenges.
